

Jennifer Vessels

Connecting people
to future success

Multi-award winning Keynote Speaker

Inspiring Future-ready Leadership – Powered by AI

Equipping people to change, embrace technology and humanity

Delivering positive impact with PEACE

Change is new constant. People must adapt, embrace technology, innovate and lead in new ways. After leading transformation for Adobe, Autodesk, Kahoot, Novartis, Schneider Electric, Jennifer Vessels fast-tracks future-readiness – equipping people with tools proven to deliver greater revenue, profitability and sustainable market value.

Recognized as Best Technology and Best Positive Impact Speaker of '24, her keynotes deliver inspiration, real-world examples and a proven framework for change with PEACE – Purpose, Exploration, Action, Collaboration, Empowerment. Her energy, bold vision of the future, experience with AI and authentic Silicon Valley insider insights applied to global companies keep people on the edge of their seat.

Jennifer understands that change, innovation, integration of technology is not easy. To maximize the impact of her keynotes, her stories include ways global companies are transforming, using AI, innovating and succeeding with future-ready leadership.

All of Jennifer's sessions are fully customized so audience members leave committed to:

- Embrace change, think differently, collaborate and grow
- Explore and gain benefits from use of AI and technology
- Let go of fear, embrace technology and thrive as future-ready leaders
- Innovate and create new opportunities for growth
- Lead with PEACE - Purpose, Exploration, Action, Collaboration, Empowerment

“Jennifer was a 10 out of 10-easy to work, highly professional, added value in the process and great speech. Out of this world on stage -kept everyone on edge of seats.”

Andreas Ljones, CEO FlowEvents

As a Silicon Valley native, Jennifer built the international business for global leaders including Tandberg, HP, UB Networks+. After successful merger of Tandberg with Cisco, Jennifer founded Next Step to accelerate corporate success during periods of change. Since 2006, she and her team of 40 professionals have led transformative growth for Adobe, Autodesk, Avinor, Google, Novartis, RaboBank, Schneider Electric and many mid-cap companies.

Jennifer earned her MBA from San Jose State University (Silicon Valley) and MS in Occupational Psychology in London. Her insights have been included in publications by EFMD, World Economic Forum, EFMD, IoD, San Jose Mercury News, New York Times. Jennifer is author of “Storms of Change: Navigating to Success”, “Future Success Today: How Leaders are Winning with Technology” and numerous articles on AI and future of work.

The future is here – move from pressure to PEACE by booking Jennifer for your next event.

Jennifer delivers keynotes, master classes, workshops and advisory services on:

AI-Powered Success – WITH People

Artificial intelligence and its impact on society is accelerating at quantum speed. Jennifer Vessels' Silicon Valley insider insights and practical examples from global leaders demystify AI and inspire use of AI to deliver exponentially greater results. Her bold view on the importance of people in an AI-powered world will empower all to use proven guidelines to co-create the organization of the future with PEACE (Purpose, Exploration, Action, Collaboration, Empowerment) her proven framework for change.

Change is the Only Constant

Technology, competition, geopolitical and generational shifts are happening at quantum speed. This keynote will enlighten, inspire and challenge all to embrace change, overcome fear and move forward in new ways with PEACE (Purpose, Exploration, Action, Collaboration, Empowerment).

Future-ready Leadership: Keys to Navigating through Change - Powered AI

Business as usual is no longer an option. Rapidly changing market needs are redefining work, leadership, markets and your competitors. It's time to act. Leaders and their teams will leave this session prepared to shift mindset, embrace change, explore ways AI / technology can enhance their business and succeed today – into the future.

Future of Work, Education and Society Powered by Technology (AI, VR, Robotics, Web3, Quantum)

Technology is dramatically changing society, work and life. People are pressured to adapt, disrupt or face career death. Forward thinking leaders are harnessing advanced technology to drive growth. Yet, for many, it can be scary. Learn how 25+ global corporations are successfully selecting, implementing and benefiting from advanced technology – while increasing engagement and future success of their people.

Humans vs Machines: Role of People in AI/Technology-Driven Society

"Automation and AI will be the end of jobs and society" stated by Stephen Hawkings in 2016. Steve Jobs countered "Technology is nothing compared to people. If you give smart people with good intentions advanced tools, they'll create a better future".

Future of Work: Roadmap to Success with PEACE

We are at a tipping point of change – leaders (and their teams) must navigate through uncertainty, embracing technology culture, innovating and disrupting to avoid being disrupted. Jennifer's bold views of the future of work, society and people ensure audiences leave her session committed to shift mindset, transform culture and business models. Her energy and hands-on experience leave people motivated and empowered to succeed with PEACE (Purpose, Exploration, Action, Collaboration, Empowerment).

Jennifer's global experience, Silicon Valley insider insights and practical life hacks make her the ideal speaker for business, government and industry events.

In the words of her clients:

"I was sitting next to our CEO and he was so impressed -'she really nailed it' ".

Guro Becker, COO Mercell

"Best speech ever– audience left fully committed to take action.""

Darren Malvec, DNA Brand Architects

"Unlike other speakers, it is clear you are 'living future-readiness' its not just theory which is so refreshing."

Mack Makode, VP Under Armour

"You gave us the inspiration AND practical tools needed to shift mindset and culture."

Fawaiz Stasbon, Ministry Interior Bahrain
